## **For The Attention of The Media.**

I am writing to bring your attention of a new comic book series titled 420. It follows the crazy adventures of Hal Lighter, a down-and-out roadie that gets caught in the middle of an extraterrestrial turf war over Earth in his attempts to get lucky with a local barmaid. In the process, he stumbles upon some extraterrestrial 'herb' that transforms him into 'Captain Cannabis,' a superhero that's about as far from politically correct as you can get.

The story and artwork are done by Verne Andru, a 30 year [mostly behind the scenes] veteran of comic books and animation with credits including Captain Canuck, Charleton Comics Group, Universal Studios, Hanna Barberra and Nelvana's animated feature 'Rock and Rule.'

The series is a modern 'underground' modeled after such favorites as the Freak Bros., Fritz the Cat and Heavy Metal.

I thank you for your time and consideration.

If I can be of any further assistance, please do not hesitate to contact me at your convenience.
